CHRISTMAS

Editor's note: An article about Florida Christmas was first published in Ormond Beach Historical Society's newsletter, and parts of it are reposted here with permission from the author, local historian Randy Jaye.

The first observance of Christmas in what is now the United States occurred in Florida in 1539. The Spanish explorer Hernando de Soto and his expedition celebrated the Christmas holiday while encamped at the Apalachee town of Anhaica (present-day Tallahassee). This Christmas celebration lacked the present-day traditions of gift exchanges, eggnog and holiday songs. However, it included a traditional Catholic mass and a large feast.

19th century Florida Christmas trees

After the American Civil War an influx of people from northern states and immigrants from European countries started relocating to Florida to build settlements. Many of these post-Civil War settlers brought their traditional Christmas customs along, which included a traditional Christmas tree that was usually a cedar tree, Balsam fir, Douglas fir or Norfolk pine. Most of these kinds of tree species are not native to Florida. These new Floridians adapted by using native trees such as longleaf and sand pines. Many of these nineteenth-century Christmas trees were decorated with homemade items such as feathers, ribbons, shells and yarn.

Some Christmas traditions unique to Florida

In addition to Santa Claus being depicted in tropical settings on many vintage and current postcards and holiday cards, there are many other Christmas traditions unique to Florida.

Christmas decorations unique to Florida include turquoise and sand color themes. Christmas tree ornaments include starfish, seashells and Santa Claus wearing sun glasses, shorts, and flip flops.
Many Floridians have substituted traditional Christmas dinner menu staples such as roasted turkey or baked ham with seafood feasts. Traditional desserts such as apple and cherry pie are oftentimes substituted with key lime pie.
Santa arrives without a reindeer-drawn sleigh in many places around Florida. In the city of Apalachicola, Santa sails into town on a working shrimp boat. In Cocoa Beach, Santa skydives into town and lands on the beach. At the National Marine Sanctuary in the Florida Keys, Santa has occasionally been spotted coming to town in scuba gear.
A swimming Santa Claus and his elves create a Christmas-themed show at Weeki Wachee Springs State Park as they join the traditional underwater production of "The Little Mermaid." This underwater mermaid show has become one of Florida's most unique Christmas traditions.

Unique Christmas traditions in several Florida towns

Christmas, Florida (that's correct — a real Florida town was established on Dec. 25, 1837). The town's streets are named after Santa's reindeer and its post office is very popular around the holidays because of its "Christmas" postmark. Miami features Santa's Enchanted Forest, which transforms Tropical Park into a winter wonderland with six million lights, 100 rides, games, and attractions. It is reportedly the largest Christmas-themed amusement park in the world. Jacksonville boasts a very bright Christmas with the Morocco Shrine Center's display of some of the brightest holiday lights in the state. The city's annual Christmas tree lighting ceremony in Hemming Park features a 56-foot-tall tree with over 78,000 bulbs and more than 100 ornaments. A nationally celebrated holiday display known as the Jax Beach Deck the Chairs (DTC) promotes arts and arts education through a community supported holiday exhibit, and includes over 40 American Red Cross lifeguard chairs that are decorated in holiday themes. In 2015, People Magazine recognized DTC in its top 50 list of America's Unique Holiday Events. Orlando's theme parks including Universal Studios, Walt Disney World, and SeaWorld set up world-renowned Christmastime displays, host festive shows and create family-friendly fun for holiday lovers of all ages. Legoland sets up a giant lego brick Christmas tree. Pensacola's Winterfest features various holiday shows. The Winterfest Express Electric Train caters to children and features a ride through the holiday-themed lighted streets and a visit to Papa Noel (aka Cajun Santa). The Pensacola Lighted Boat Parade is a holiday season sparkling event that is said to be best witnessed from the Pensacola Beach Boardwalk. Sarasota's University Town Center features over four million lights in holiday shapes ranging from reindeer to Christmas trees. St. Augustine hosts the annual Night of Lights Festival where more than three million lights are draped on historic buildings, homes, wrapped around palm trees, and lined along roads and streets. Tallahassee boosts a festive Christmas glow of twinkling lights. The annual Holiday Stroll Through Cascades Park features more than 20 performances including Christmas carol singing. Water fountains spray in tune to holiday songs. West Palm Beach's downtown Sandi Land hosts a 35-foot, 700-ton sand tree topped with a giant star and decorated with more than 5,000 lights. A music and light show is performed every 15 minutes each night during the Christmas season.
With all the unique Christmas traditions throughout Florida, who needs ice and snow for the holidays?
We all have our special way of celebrating Christmas. Hopefully, the significance of the Holiday is not lost.

Merry Christmas!....¡Feliz Navidad!....Joyeux Noël!....Frohe Weihnachten!....Buon Natale!....
Feliz Natal!...Crăciun Fericit!...Счастливого Рождества!...Wesołych Świąt Boże Narodzenie!

HIGHLIGHTS FROM 2026

Self-Managing our community without an employed Property Manager in 2026, although challenging, has been going well. Development of a standard operating procedures manual, to assist with our property

management has been ongoing. An announcement regarding a Property Manager is expected to be made in early December. In the past year, each Board member has been assigned specific tasks such as, Board Secretary, Treasurer, Buildings and Grounds or Clubhouse to share the work load. Shareholders at Enchanting Shores are very fortunate to have President Kelley Whaley and a Board that keeps things running smoothly day to day during the off seasons, but that is only part of the job. As shareholders return this year they will notice how hard the Board has worked to not only maintain our park and facilities but also the many improvements that have been made. Some projects that were accomplished the past year include the following:

- Milling and repaving all ESC roads. Also included relining parking spaces and road markings.
- Seal coating of the tennis/pickleball, shuffleboard, bocce, and basketball courts.
- Installation of a new internet fiber optic system within the park and a plan to have the system available for operation this January.
- Completion of Clusia planting along the west fence line boundary
  Installation of automatic opener for Clubhouse screen doors
- Trimming of Manatee Road hedges to make for easier maintenance and better sound absorption
- Jetting of storm drains to help with park flooding and water flow issues
- Pressure washing and cleaning of pool furniture and pavers
- New shuffleboard benches and scoreboards
- New pickleball/tennis court benches
- Cleaning of back porch including the ceiling
- Pressure wash cleaning of the Clubhouse
- Stripping and waxing of billiard room and library floors
- Painting of walls in billiard room
- Maintenance and upgrading of street lights
- Renumbering of boat and utility trailer parking spaces
- Planting and maintaining flower gardens and park shrubs
- Prep and painting of Clubhouse doors
- Installation of new culvert under main entrance roadway.
- Pool heater replacement
- Clubhouse Vinyl Siding repairs/replacement
- Swimming Pool Shower Hot Water Recirculation Pump
- Installation of swale pump at west end of Aquamarine Avenue

While there may be additional projects that are not included, this list gives you an idea of the magnitude of what went on during the past year.

President Kelley continues to work with representatives from Collier County Stormwater to resolve issues with stormwater affecting the south and west swales. Culverts along Manatee Road have been jetted along with some culverts within our park. Debris has been removed from the swales and in some cases the swales have been replenished and regraded. These efforts have significantly improved the stormwater drainage around the park but more work is needed. Collier County will be dredging of the south swale along Manatee Road soon.

Water usage has been an issue and will continue to be an issue as water costs continue to rise every year. Costs associated with water and sewer are the largest monthly expense in the budget (over 25 % of the 2027 expense). A new rule was passed to require all homes left vacant for more than a week shall ensure

the water is shut-off to the home (Rules and Regulations 3.c). The shareholders rejected, by vote, the installation of individual submeters at the 2026 Annual Meeting. This makes it even more important that each shareholder monitor their water usage to conserve water.

Contractors are being utilized for Clubhouse cleaning (*Clean Quest*), routine pool maintenance, (*Sweetwater*) and grounds keeping (*Earth Wiz*). The previous grounds keeping company, *Brightview Landscaping*, was replaced with a new contractor, *Earth Wiz*.

Not to be overlooked are the many shareholder volunteers that assist in maintaining our park and property. These efforts not only keep our park beautiful but also result in cost savings for all shareholders. The efforts of the Beautification Committee are evident as they have worked hard to keep our park gardens and entranceways looking beautiful. The flowers at the park entrance and Clubhouse are striking and exemplify their dedication.

During the off season many of the full-time resident shareholders volunteer with painting, cleaning, weed pulling and whatever work is needed.

There are also numerous organizations, groups, committees, clubs that have sponsor events at ESC that have monetary proceeds from the events they sponsor. These proceeds are then used to benefit the community in various ways. Some examples include the *Bingo* group providing funds to purchase benches for the shuffleboard courts, the *Church* group donating funds to be utilized by ESC management, the *Pickle Ball* club purchased benches for the courts, part of the Community Yard sale proceeds were used to purchase material or support events (see Community and Yard Sale write-up that follows), donations from the *Horseshoe* group pancake breakfast proceeds to support various projects. This year the *Hot Dog Tuesday* group put on a free July 4th picnic for residents. This group also provided and cooked the hot dogs for the Keewaydin beach outing. There was also Veterans Day lunch (catered by Texas Tony's) put on for all ESC Veterans and their spouses. Pastor Dennis, Joylyn, Linda Posey and Rhonda Dirette organized a last minute Thanksgiving Day Pot Luck dinner. There were also numerous "Block" parties organized and supported by the residents.

Organizations outside our community also benefit from the generosity of our shareholders. The Red Cross received blood donations from the annual bloodmobile organized Cathy and Owen Loudin.

The Manatee Elementary School receives donations every year from fundraisers coordinated by Glenda Blazek. Evelyn Bitgood has been instrumental in providing quilts and teddy bears to the children at this school.

Needless to say, all of this demonstrates how generous and unselfish ESC residents are and why ESC is like heaven on earth.

FOR THE GOOD OF THE COMMUNITY

Defibrillator - There is a Defibrillator that can be used for emergency purposes. It is located to the left of the Clubhouse exit doors leading to the pool area. Please note its location as it can be used to save someone's life. Instructions for use are also included so training is not necessarily needed.

Water Consumption – President Kelley has been doing a great job of keeping the community aware of the monthly Clubhouse electrical usage and water consumption over the past year. It behooves all of us to practice conservation in these two areas. Please ensure that water usage issues within your home (leaky faucets, running toilets and piping leaks) are promptly addressed. A testing device, along with instructions, is available at the ESC office to leak test your own plumbing. For lawn irrigation. Rules and Regulations section 21, specifies the allowed operation, watering days and duration (odd addresses Monday, Wednesday and Saturday; even addresses Tuesday, Thursday and Sunday with a maximum duration time of 15 minutes). The intent of these requirements is to ensure that the community and individual shareholders comply with Collier County ordinances.

Exterior Alterations – A permit is needed prior to commencing any form of exterior alterations to their lot and/or unit. Failure to do so could result in removal of the alteration.

Observe Speed Limits – Along with the winter season comes an increase in the number of pedestrians, bicycles and vehicles. The speed limit posted throughout the park is **10 mph**. Numerous bicycles and electric bikes have been observed traveling around our park above and beyond the 10mph speed limit. As per our rules/regulations (section 18), this speed limit applies to all motor vehicles, bicycles and motorized bikes. There have been a few close calls and it's only a matter of time before someone gets hurt. Please observe the limit to ensure the safety of all. If you are not sure what 10 mph is, if you are traveling in a vehicle, you most likely will have to drive with your foot on the brake to slow to 10mph. Slow down Please!

Night Biking - If you are riding your bike at night in the community, please make sure you have a light on so cars and other vehicles traveling can see you. We have had a few very close calls. The Collier County statute pertaining to night riding reads:

A bicycle operated between sunset and sunrise must be equipped with a white light on the front that is visible from 500 feet and both a rear reflector and a red light on the rear visible from 600 feet.

It's also important to walk on the right side of the road.

Henderson Creek - Florida Wildlife Conservation Commission relayed the importance of not leaving any trash, chairs, fishing gear or evidence other than foot prints while visiting the manatee pond area at Henderson's creek, behind our boatyard. You can bring these items, just be sure to take everything back with you. The inspector warned that if we do not follow this rule, the area could possibly be gated off with no trespassing allowed.

ESC Flyover -Do you want to get a "bird's eye view" of our beautiful park? Bingo sidekick and resident, Matt Carunchia, has given you the opportunity to do just that. You can go to our website, ***enchantingshores.com***, click on the video tab on the menu bar and then select *ESC Flyover* and you will see our park from a different perspective.

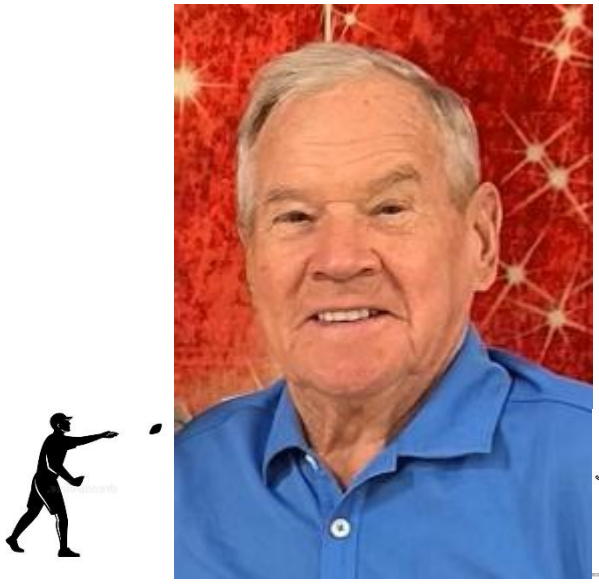
Join us in celebrating the birthday of a new addition to the ever-growing population of nonagenarians at Enchanting Shores, Stanley Bartkowiak, of 13 Onyx Drive, formerly of 8 Aquamarine Avenue who hails from Ocean View, Delaware. It's hard to believe Stanley is 90 years old. He is like the pentathlete of Enchanting Shores participating in Shuffleboard, Cornhole, Billiards, Pinochle and can be occasionally seen riding his bike to Walmart. Oh, and by the way, he flips bicycles, as in, fixes them up for a new owner. Maybe these are the keys to Stanley's youthful look and vigor. Join us for cake and refreshments in the Clubhouse on:

Saturday, December 19, 2026 at 3:00 pm



Happy Birthday Stanley!!
